My Website: eggnogplus.github.io

About Me

My passion for making and discovering new things, sparked by many late-night coding adventures, led me to the University of Canterbury to pursue a degree in Software Engineering. As I enter my final year and transition from student to professional, I am seeking a company of equally passionate developers and business leaders. I thrive in collaborative environments where complex, real-world challenges are transformed into practical solutions. With solid experience in Java, C#, Python, JavaScript (React), SQL, Docker, and managing homelab environments, I am eager to bring my skills to your team and become an invaluable asset.

Experience

Trimble SiteVision Software Engineer (Jan 2026 - Current)

Part-time, Feature and DevOps Development

- Developed custom DevOps tools to improve search and give warnings for missing implementations of nodes
- Streamlined the development pipeline of engineering native plugins for iOS and Android
- Hands-on technical development in an agile development R&D environment

Trimble Applications Specialist Intern (Summer 2025-2026)

Verify and provide user feedback to ensure Production level quality

- Performed rigorous software quality assurance testing and delivered testing/bug reports to management
- Provided UI/UX feedback through multiple user perspectives to improve the final product deliverables

Solo Game Developer (Ongoing)

Development of a commercial 2D indie game.

- Learning GDScript, Godot game engine

- systems, and game design principles
- Designing and implementing core gameplay mechanics, including AI behaviour system
- Learning new tools and problem-solving technical challenges in real time

Noel Leeming Seasonal Team Member (Summer Breaks 2023 & 2024)

- Worked on the till and the floor helping customers with their purchases and customer service issues
- Operated effectively and amicably in a very busy environment in a customer facing role
- I learned how to work hard and achieve KPI's in a collaborative environment

DRAMASOC Exec. Member/Certified First Aider/Service

- Executive member of the UC Drama Society directing the improv sub-committee
- Organised and ran a clothes drive for underprivileged families
- Volunteered as a Theatresports coach, teaching improv and acting

Education

Fourth Year Software Engineering Student at the University of Canterbury (2023-Present)

- Achieved A's in Web Development, Artificial Intelligence, Computer Vision, Software Engineering II, and Human-Computer Interaction
- Applied Agile/Scrum methodologies in a collaborative team environment to meet deadlines. My unique contribution was ensuring my team was consistently delivering functional requirements through setting quality standards and thorough documentation.

Saint Kentigern College (2016-2022)

- Academic Honours (2021) NCEA Excellence Endorsement (2020 - 2022)
- Appointed a Peer Support Leader (2022)
- A number of awards, including the Diligence Award and the Arts Cup

Skills

Technical Skills

☒ Languages

- Java
- Python
- SQL
- C#
- Rust
- TypeScript

☒ Frameworks/Tools

- React
- Godot
- Git
- Docker
- Unity
- CAD Software

☒ AI Experience

- Self Hosted Music Recommendation Generator
- Personal Agentic Hermes Agent

☒ Hardware

- 3D Printing
- Homelab Management

Soft & General Skills

☒ Project Management

- Agile lifecycles
- Sprint planning
- Milestone management and delivery
- Critical self reflection and improvement

☒ Business Analysis

- Translation of stakeholder needs into actionable stories
- Clarifying user requirements

☒ Work Ethic

- Passion for continual learning & improvement
- Dedicated to producing quality outcomes

☒ Team Player

- Collaborative
- Sourdough baker
